

PASS AREA AYSO REGION 641  
CHERRY CUP TOURNAMENT

## COVID-19 SAFETY PROTOCOL

Note that these protocols can change at any time.

PASS AREA AYSO regularly monitors state and local health department guidance.

This policy is consistent with guidance from the California Department of Public Health, Riverside County Health, and the CDC.

The following COVID-19 precautions are to be observed:

- Families are requested to keep players at home if they test positive for COVID-19, exhibit symptoms, or come into close contact with someone infected with COVID-19.
- If a player tests positive for COVID-19, parent should promptly notify the coach so that potentially affected individuals can be notified, while maintaining the player's confidentiality.
- Players should bring their own water bottles. Individually wrapped snacks are recommended instead of shared snacks.

This is an extremely dynamic situation, and we will continue to monitor and adjust our policy as the guidance evolves.
